

WARRANTS

A L E R T

NEWSLETTER

**Full Details
Inside**

- Warrants offer exciting opportunities for investors.
- There are more than 500 warrants listed on the London Stock Exchange.
- All of the varieties - company warrants, investment trust warrants, subscription shares, covered warrants, and other geared instruments - are included in the newsletter.

The newsletter is written by the well known warrants expert Andrew McHattie. He is the author of two best-selling books on the subject, and combines his specialist knowledge with long experience. He has written over 280 issues of the newsletter, which has been published monthly since 1989.

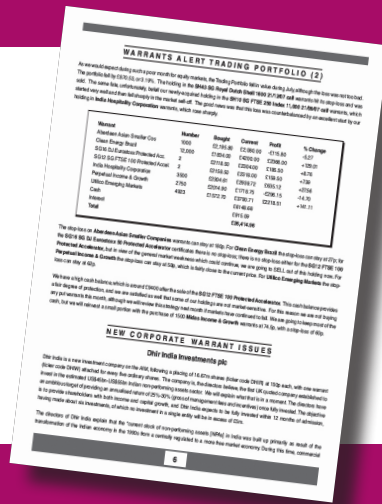

Warrants Alert contains 16 pages every month, packed full of the information and advice you need to make the most of the UK warrants market. The newsletter includes a Trading Portfolio and a monthly list of undervalued and overvalued warrants (see reverse of this leaflet).

- We aim to spot undervalued warrants with great profit potential.
- The newsletter provides the full warrant terms for all new issues.
- We hunt for advantageous price anomalies.

- The gearing offered by warrants means that they can outperform shares very significantly on the way up (although losses can also be magnified on the way down).
- We try to capture these potential gains, and show you exactly what trades we recommend.
- Warrants Alert Professional includes a Trading Portfolio, updated each month.

Second Trading Portfolio

- The First Trading Portfolio ran from October 1998 to October 2001 and turned £10,000 into £22,837 after all dealing costs - a return of 128%.

- The Second Trading Portfolio was started in December 2001, again with £10,000. When we closed it in September 2011 the return was 255%. We are now running number three.

Published and issued by The McHattie Group, St Brandon's House, 29 Great George Street, Bristol, BS1 5QT. Telephone: 01179 200 070. Email: enquiries@mchattie.co.uk. Authorised and regulated by The Financial Conduct Authority. Warrants Alert gives general advice and comment only. The price and value of investments and the income, if any, from them can fall as well as rise. You should not buy warrants with money you cannot afford to lose. Warrants may involve a high degree of gearing or leverage. This means that a small movement in the price of the underlying asset can result in the loss of the whole of your investment. The prices of warrants can be volatile, and the difference between buying and selling prices can be wide. Warrants have a limited life and can expire worthless. Past performance is not necessarily any guide to future performance. Some investments may not be suitable for an individual investor. If you have any doubts, please seek advice from a professional investment adviser. ©2013.

You can pay by standing order, by cheque, or by credit card (telephone 01179 200 070). Most subscribers prefer to pay by standing order because we guarantee no future price rise for as long as your standing order is in force.
